Notes of Inspection of the Mysore Wakes Cubbly and the Chief Engineer's letter in the matter

2 As regards the 2nd point, the procedure prescribed by Govt at the suggestion of the San Comr himself, is that his notes of Sanitary Inspection of any Municipality should be submitted to Govt through the Munl President Concerned so as to enable the Govt to have the views of the Mnl. Bd & the President on the several suggestions contained in those notes. The first Commission also has friendly ordered that in future and [illegible] Copies of such reports may be sent to the Munl. President and Chief Engineer at the same time as the report is sent up to Govt. The San Commissioner's present suggestion is that all Communications to Govt by Heads of Depts on matters relating to Water & Drainage &c should pass through it. This seems unnecessary as all Sanitary works are to be considered hereafter by the Dist and Central Sanitary Boards & alternative proposal of the Heads of Depts sending Copies of such Communications
